ASX

Look your best

GETTING READY FOR A SPECIAL OCCASION CAN'T BE HURRIED.
EVERYTHING MUST BE RIGHT, EVERY ITEM A CAREFULLY PLACED
NOTE IN A SYMPHONY OF STYLE.
THE FINISHING TOUCH IS YOUR NEW ASX.
AFTER ALL, ONE SHOULD NEVER SIMPLY TURN UP.
FAR BETTER TO MAKE AN ENTRANCE.
WHEN YOU DO, HEADS WILL TURN. DOORS WILL BE HELD OPEN.
The night is yours.

A S X

A lasting impression

ASX CREATES A SENSE OF
OCCASION WHEREVER
THE ROAD OR THE MOMENT
TAKES YOU.

» THE LATEST IN SAFETY

ASX is very smart about keeping you safe. Every road condition is planned for and every occupant is safely enclosed within the rigid body. ASX easily achieves a 5-star safety rating – the highest safety standard.

» AN EYE FOR DESIGN

ASX always creates a good impression. The bold, sculpted contours are unmistakable; the view of the city gracefully moving overhead through the panoramic roof (VRX only) is unforgettable.

» EFFORTLESS POWER

Whether you're gliding through the city or leaving it behind, ASX will spirit you along. You have the choice of two engines and, should the need arise, on diesel real 4WD activates at the press of a button.

» ALL THE ACCESSORIES

ASX spoils you with features that enhance your drive and cater to your comfort. Inside and out, every model in the range is very well appointed.

» MODEL SHOWN ASX VRX in Electric Blue

For life, for style

EVERY FEATURE, EVERY CRAFTED CURVE IS DESIGNED TO LOOK SHARP AND WORK EFFORTLESSLY.

ASX is a very distinctive vehicle and appeals to those with an appreciation for design. The most striking feature is the front grille, glinting with accents of chrome. It complements the rest of the vehicle's aesthetic with crisp lines defining its outline. Its stance is completed with brushed stainless steel 18-inch alloy wheels, standard on every model.

Inside, the smart curves continue along the dashboard and doors.

The seats are designed to look good and feel even better, providing absolute comfort on long journeys. The colour range offers classic or contemporary hues to make your **ASX** individual.

VRX is even more opulent with smart leather seats, very elegant in black. Perhaps its most defining feature is the panoramic roof. The blind slides back at the touch of a button to reveal the avenue of a city or a star-studded sky gliding overhead. Mood lighting around the edges of the roof sets the ambience for a night out.

*Luxury
is a given*

» MODEL SHOWN ASX VRX

A VEHICLE LIKE ASX IS GOING TO LEAD A VERY BUSY LIFE. WHEREVER IT TAKES YOU, YOU'LL BE SURROUNDED WITH FEATURES THAT OFFER LUXURY, COMFORT AND CONVENIENCE IN EQUAL MEASURE.

Ease into the driver's seat. Let your hands close around the smooth leather steering wheel. From here you're in complete control of the vehicle and the array of features it has to offer. The power steering adjusts to your speed: firm and accurate on the open road; light and easy when you're in a car park, where you'll also appreciate the small turning circle.

The buttons for the cruise control, standard on all models, are right by your fingers. The wheel itself adjusts in 4 directions to let you find the most comfortable driving position. The large touch screen to your left houses the reversing camera, the voice-activated Bluetooth™ phone system, and the impressive stereo with 6-speaker sound system on VRX.

The rear cargo area is wide and tall, while the floor sits low. This lets you carry any item and access it with ease. If more space is needed, the

rear seats split 60:40 and fold down quickly. The spare wheel is tucked away unobtrusively.

On VRX the days of fumbling for car keys while arms are full are gone. With keyless operation system just press a button to start and stop the engine.

Your safety is everything

THE SENSE OF EASE ASX CREATES IS DUE TO ITS ELEGANT DESIGN, AND ALSO TO THE MANY FEATURES THAT KEEP YOU AND YOUR PASSENGERS AS SAFE AS POSSIBLE.

Every aspect of ASX is designed with safety in mind, hence the 5-star ANCAP safety rating. The first consideration is to avoid danger wherever possible. Active Stability and Active Traction Control help you to maintain the safest course, while ABS stops you as soon as possible. There's even a SmartBrake that only applies the brake if you hit both pedals unintentionally.

The body encloses you in a very strong, high-tensile lattice that absorbs energy. The next line of defence is the 7 airbags, including side, curtain and driver's knee, available across the range. Front seat belts

are designed to tighten and release in the safest possible way.

The elevated ride height lets you see hazards quickly. Other drivers will see you thanks to the Daytime Running Lights and the hazard warning lamps illuminate under extreme braking.

Enjoy the performance

THE DESIGN EMPHASIS ON ASX IS IMMEDIATELY OBVIOUS, BUT IT HAS THE POWER TO MATCH, THANKS TO A CHOICE OF ENGINES AND TRANSMISSIONS THAT PROVIDE SMOOTH ACCELERATION.

Two-wheel drive models provide all the power you'll require from the 2.0L MIVEC petrol engine. It's also very efficient, using only 7.6L per 100km and emitting just 176 grams of CO₂ per km. This engine is matched to a 6-speed INVECS III transmission, which uses belts instead of conventional cogs for totally smooth, stepless acceleration. For a genuine driving feel, you can change gears with the lever by engaging Sport Mode.

Four-wheel drive models use the 2.3L diesel engine. Like all diesels it provides instant power when you take off, which

is smoothed out and enhanced with a turbocharger for hills, overtaking, or simply enjoying the open road. It's more powerful and even more efficient, using as little as 6.0L per 100km. The 6-speed automatic gearbox gives you the ideal balance of power and economy.

Both models feature traction systems that use the power wisely and safely. **VRX** creates an exciting driving experience with paddle-shifts for quick, responsive gear changes.
